PROJECTS

Portfolio Website [✉](#)

- Built a fully responsive portfolio website using **Next.js, React, Tailwind CSS, and Framer Motion** to showcase skills and projects with smooth animations and enhanced UI/UX.
- Improved user engagement by integrating **interactive components**, accessibility practices, and optimized performance for fast load times.

Agency Landing Page [✉](#)

- Designed and developed a **high-performance agency landing page** with modern UI/UX principles, strong branding elements, and responsive layouts.
- Implemented **motion effects, reusable components, and best-practice frontend architecture** using React and Next.js to enhance scalability and navigation flow.

Gym Landing Page [✉](#)

- Crafted a fully **responsive** fitness website with **Next.js** and **Tailwind CSS**, delivering fast load times, smooth navigation, and a mobile-optimized experience
- Implemented **dynamic section routing** and **modular React components**, ensuring consistent UI patterns, and optimized performance using server-side rendering
