PROFESSIONAL SUMMARY

Information Technology undergraduate at Delhi Technological University with hands-on experience in **full-stack and cloud application development**. Skilled in **Next.js, React, TypeScript, Node.js, Prisma, and PostgreSQL**, with experience in **REST APIs, authentication, RBAC, real-time systems, and application security**.

EDUCATION

Delhi Technological University

B.Tech in Information Technology

Rohini, New Delhi

Aug. 2024 – May 2028

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, TypeScript, Python, SQL

Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend & APIs: Node.js, REST APIs, Next.js Route Handlers, Prisma ORM

Databases: PostgreSQL, MongoDB

Authentication & Security: Better Auth, Supabase Auth, Role-Based Access Control (RBAC), Row-Level Security

Tools & Platforms: Git, GitHub, Vercel, Postman, VS Code

Core Subjects: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), DBMS, Operating Systems (OS), Computer Networks (CN)

EXPERIENCE

Software Engineer Intern

Dawn Digitech LLP

July 2026 – August 2026

Remote, India

- Contributed to **AI-led software development projects**, translating project requirements into functional features and **cloud-based application workflows**.
- Developed application components using **application architectures, data schemas, script configurations, and custom workflows** for client-specific requirements.
- Worked in **one-week MVP sprints**, delivering technical milestones and improving solutions through **weekly evaluations and project feedback** while supporting low-code cloud application development.

Full Stack Developer Intern

Centre of Excellence for Happiness (CESH), Delhi Technological University

June 2026 – July 2026

New Delhi, India

- Built a **full-stack survey platform** using **Next.js, Supabase, and PostgreSQL**, enabling structured survey creation, response collection, and analytics-ready data management.
- Designed **normalized database schemas and RESTful APIs** to support reliable response storage and scalable data retrieval.
- Implemented **Supabase Authentication and Row-Level Security (RLS)** to protect user submissions and enforce secure data access across the platform.

PROJECTS

FieldFlow | *Next.js, React, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Better Auth, Leaflet* 2026 – Present

- Engineered a **multi-tenant field operations platform** for dispatching, route planning, workforce management, GPS tracking, geofencing, and compliance auditing.
- Built a **real-time Leaflet/OpenStreetMap radar** with technician markers, GPS trails, geofence boundaries, and live operational statuses.
- Implemented **RBAC, tenant isolation, audit logging, CSV reporting, and server-side validation**; verified with **259 automated tests across 15 suites**.

AI Resume Analyzer & Maker | *Next.js, JavaScript, Tailwind CSS, Grok API*

Dec. 2025 – Jan. 2026

- Engineered an **AI-powered resume analysis platform** using **Next.js and Grok API**, generating ATS compatibility scores, keyword matching, and role-specific optimization recommendations.
- Implemented **PDF/DOCX resume parsing** and **six-dimensional AI evaluation** covering ATS compatibility, content quality, skills, structure, professional impact, and role alignment.
- Developed an **ATS-friendly resume builder** with reusable React components, Tailwind CSS, professional templates, real-time preview, and **PDF export** for responsive resume creation.
